

- **Voter Registration** — A person applying for a standard driver’s license/ID card will be informed if he/she is currently registered to vote and if so, at what address. If he/she is not registered, the person will be asked if he/she wishes to register to vote or to update his/her voter registration address. The application will be electronically transmitted to the Illinois State Board of Elections. A person applying for a Real ID compliant driver’s license/ID card and who has provided proof of U.S. citizenship will be advised that his/her driver’s license/ID card application will also serve as an application to register to vote, and the information will be electronically transmitted to the Illinois State Board of Elections, unless the applicant opts-out of voter registration. The Board of Elections will forward voter registration applications to the appropriate local election authority. A Temporary Visitors Driver’s License applicant is not eligible to register to vote.
- **Selective Service** — Federal law requires all males ages 18-25 to register with the Selective Service System. The signature on the driver’s license/ID card application of any qualifying male certifies that he has registered or, if not already registered, authorizes the Secretary of State’s office to submit his information to the Selective Service System for registration.
- **Emergency Contact Database** — Illinois driver’s license/ID card holders may register with the Illinois Emergency Contact Database. The program allows a person to provide emergency contact information for law enforcement or emergency responders in the event of a crash or emergency situation. Individuals registering may also provide information concerning disabilities or special medical needs. More information is available by visiting ilsos.gov.
