DEFICIT BUDGET SUMMARY INFORMATION - Operating Funds Only (School Districts Only)

Direct Revenues	17,527,178	2,532,300	704,500	21,100	20,785,078
Direct Expenditures	18,710,798	3,272,171	581,000		22,563,969
Difference	(1,183,620)	(739,871)	123,500	21,100	(1,778,891)
Estimated Fund Balance - June 30, 2025	14,413,551	4,285,380	1,420,827	697,511	20,817,269

Unbalanced budget; however, a Deficit Reduction Plan is not required at this time.

A deficit reduction plan is required if the local board of education adopts (or amends) the 2024-202: school district budget in which the "operating funds" listed above result in direct revenues (line 9, BudgetSum 2-4) being less than direct expenditures (line 19, BudgetSum 2-4) by an amount equal to or greater than one-third (1/3) of the ending fund balance (line 81, BudgetSum 2-4).

Note: The balance is determined using only the four funds listed above. That is, if the estimated ending fund balance is less than three times the deficit spending, the district must adopt and file with ISBE a deficit reduction plan to balance the shortfall within three years.

Per School Code (105 ILCS 5/17-1) - If the Deficit AFR Summary Information tab from the 2023-2024 Annual Financial Report (AFR) reflects a deficit as defined above, then the school district shall adopt and submit a deficit reduction plan (found here on page 23-27) to ISBE within 30 days after acceptance of the AFR.

The deficit reduction plan, if required, is developed using ISBE guidelines and format.

Part I: Achieving Student Growth and Making Progress Toward State Education Goals

The questions below allow you to indicate the strategic priorities and strategies that will drive your efforts to achieve student growth and make progress toward state education goals. These may involve investing in any combination of an Organizational Unit's core resources time, money, people, and programs.

Collaboration Opportunity - Organizational Units may find that Part I is most easily and effectively completed if led by program leaders in consultation with finance leaders.

1) What are the Organizational Unit's strategic goals for student success for the 2024-25 school year? What measures will be used to evaluate progress? (No more than 2000 characters, including spaces.)

In our strategic plan, we aim to ensure that all our students, particularly those in college, are well-prepared for their careers. The key initiatives we will undertake to achieve this goal include:

Reducing College Remediation Needs: We will focus on minimizing the necessity for college remediation classes among our students.

Expanding Dual Credit Offerings: We intend to enhance the availability of dual credit classes, enabling students to earn college credits while still in high school.

Integrating Team-Based Challenges: Our plan involves incorporating team-based challenges into the school day, providing students with opportunities to collaborate and develop essential skills.

Increasing Work-Based Learning Opportunities: We will work towards increasing the exposure of our students to work-based learning experiences, helping them bridge the gap between classroom education and real-world applications.

Enhancing Career Exploration Activities: Our strategy includes offering a range of career exploration activities to guide students in discovering various professional paths.

By implementing these measures, we are committed to fostering a comprehensive and effective approach to preparing our students for both college and career success. We will use the number of students that graduate with dual credit, computing transitional math/EL/ courses, and earning the College and Career Pathway Endorsement on the diploma to evaluate our progress.

Part II: Planned Use of Evidence-Based Funding

The questions below provide an opportunity to document the stakeholders with whom you consulted and the data you analyzed as you determined your strategic allocations of FY 2025 EBF dollars. Key statistics related to EBF distributions are provided for your reference. Form 50-36/50-39 is typically released before current-year appropriations are known. Therefore, the figures provided are for the prior fiscal year.

Collaboration Opportunity - Organizational Units may find that questions in this section are most easily and effectively completed if led by finance leaders in consultation with program leaders.

4	Cost Factor Ta					

The table below presents the regionally adjusted amount embedded in the Organizational Unit's FY 2024 Adequacy Target for each of the 34 cost factors in the Evidence-Based Funding model (Column F). Column G is required for all Organizational Unit's FY 2024 Adequacy Target for each of the 34 cost factors in the Evidence-Based Funding model (Column F). Column G is required for all Organizational Unit's that receive at least 55,000 in Tier Funding, while column H is optional. Organizational Unit's may choose to provide additional narrative context in Columns I-M to elaborate on the figures included in the table. ISBE has produced guidance for populating the cost factor table. The guidance includes a definition for each cost factor, along with suggestions for using Employee Information System position codes and common expenditure accounts to support a determination of expenditures. This guidance is available at https://www.isbe.net/ebfspendingplan.

Column G: If the Organizational Unit will receive at least \$5,000 in FY 2025 Tier Funding (as entered in Q2.1/cell G31), column G is required. Please indicate the Organizational Unit's planned expenditures in FY 2025 from Tier Funds only. Organizational Units are not expected to place a value in each cell. Rather, the table allows for the communication of priority investments with new state resources for the current fiscal year. During years in which there is no new Tier Funding, column G will not be required. During years in which Tier Funding is available, the amount of new Tier Funding entered in Q2.1/cell G31 above must equal the sum in cell G90 below. If some or all Tier Funding is invested outside of the cost factors, enter a dollar amount in cell G89 and provide additional context in the space for a narrative beginning in row 93.

Column H: Optionally, Organizational Units may populate column H with total planned expenditures in FY 2025 for each cost factor from all revenue sources (e.g., not just from EBF). By comparing the figures in column F to the figures entered in column H, the Organizational Unit may engage local stakeholders in productive dialogue about resource allocation decisions.
